Maintain the stock of spare parts of compressor. Maintain the scheduled of service time of products. Report the higher authority about products efficiency as well as problems frequently occurring.

Internship

May 2013 - July 2013

Quality inspector

Netmech Engineering Company
Ichalkaranji, Maharashtra

The machining process of Cam Shaft of various compny like Bajaj Motors, TVS Motors etc. done in Netmech Engineering Company. I check the all parameters of products like length,diameter,depth,angle,hardeners etc.and make the report.

Awards & Honors

Achieved 1st rank in National level Quiz competition held in SITCOE.

Skills

Technical Skills -
VMC Machine operating , CNC Machine of Induction Hardening
Project Management

Computer Proficiency

Operating Systems

- Window XP
- Window 7

Software

- Auto-Cad
- Tally ERP-9
- MS- Office
- Q GIS
- Photoshop

Languages

- Hindi
- Marathi
- English

Personal Interests

Sports - Kho kho, Chess

Extra Curricular Activities

Delivered a seminar on topic "Vision system for automatic inspection of mass production".
Successfully published a paper presentation on "Beti Bachao" topic in Ashokrao Mane Engineering college.

Projects

Project 1 Thermal energy storage system in solar water heater using phase change material(Parrafine Wax)
Period: July 2014 - April 2015
Team Size: 4

Project Summary

I had manufactured the regular water heater system as well as the modified structure as aluminium tube kit filled with phase change material. I had used the phase change material as Parrafine Wax. Take the readings of system at many natural conditions. The phase change material is absorb the heat and stored by change the state of material. Then water in tank absorb the heat from this material. This system enhance the efficiency of regular water heating system.
