Industrial Training at:

- *Steel Cast Ltd., Bhavnagar*
- *Piramal Glass Ltd.,Kosamba*

Project Summary:

Oil Water separator using drum type Oil-Skimmer (From Aug'17 To Apr'18)

In the industrial areas which are near to big bodies like river, ponds or even ocean. There are chances of harmful oil-based waste to be leaked in water. If any animal or human consume these spoiled water, it can harm their lives. Any human eats fishes living in that oil mixed water, it can be very hazardous for their health too.

Objective of our project is to use the oil- skimmer.

- *To separate oil and water from the blending of oil and water*
- *To decrease the water contamination*
- *To enhance the oil recovery rate.*

Experience:

*- currently working as production supervisor at Mahavir casting Ltd.
From 8th june, 2018 to till now.*

Declaration:

To work in a challenging environment demanding all my skills and efforts to explore and adapt myself indifferent fields and realizing my potential where I get the opportunity for continues learning.
