**COMPUTER SKILL**

---

AutoCAD, Basic knowledge of M.S Office.

**ACADEMIC PROJECT**

---

**OBJECT MOBILIZATION USING GEAR MECHANISM.**

-Object Mobilization technology is becoming the most important criteria to all type of the productive and non-productive businesses operating in today's competitive society. It is a gadget which is used to move an object from one place to another by reducing manpower and electricity source. The device will use rack and pinion (gear mechanism) to produce power which will be stored in a battery. The mobilization will take place with the help of a battery, which is connected to a motor mounted on wheel.
