CERTIFICATES

Testing of Farm Implement and Machinery (2016)

In this training i have learnt the observation and testing of different machines like Rotavator, Cultivator, Disc-harrow, M.B Plough, Sub-Soiler.

PERSONAL PROJECTS

Development of Automated areal sprayer

- AAPS is basically a blimp integrated into a quad copter to spray pesticides in open fields. The main aim of this system is to reduce the ill-effects to humans, lessen the time used for spraying, use economically the pesticides and to use under any climatic conditions.
