

OM RELIABILITY

Facility Engineering Services

Our journey began as a dedicated sales and service firm specializing in **Laser Alignment**, **Pump repairs**, spares, repair and maintenance of rotating utility machinery, including motors, gearboxes, and more. As we evolved, so did our commitment to innovation and comprehensive engineering solutions.

Today, we proudly stand as registered vendors with key players in pharmaceuticals, manufacturing, and hospitality sectors in Goa. Our vision is to continue expanding our diverse engineering modules, providing unparalleled support and becoming the trusted partner for all industrial needs.

SERVICES

- **Mechanical Services:** Overhauling, Repair, and Bearing Replacement of Pumps, Gearboxes, Lobe Blowers, AHUs, and other rotating utility equipment.
- **Laser Alignment:** Provides Belt & Shaft Alignment services for both vertical and horizontal setups.
- **Validation & Certification:** Conducts Air velocity tests, Filter leak tests, Particle count tests, Temperature/RH tests, and Instrument Calibration services.
- **Preventive Maintenance Schedules:** Offers Greasing Routines, Alignment & tightness checks, and overall machinery health assessments.
- **Machinery Health Monitoring Services:** Monitors Vibration, Sound, and bearing temperature with frequency-amplitude spectrums.
- **Civil Services:** Covers Planning, Designing (RCC/Steel Structure), Excavation, Masonry Works, Fabrication, Painting, Tiling, VDF Flooring, Roofing Works, Waterproofing, Plumbing, Electrical, Finishing, Landscaping, and Maintenance work.
- **Valve Repair:** Undertakes the repair of all types of valves, including hydro testing and painting.
- **Design & Fabrication:** Creates jigs, fixtures, and parts in materials such as MS, Brass, Gunmetal, SS, Aluminium, Teflon, etc.
- **AMC:** timely execution of technical maintenance to avoid breakdown and failures
- **Testing, Calibration & Certification:** Offers testing, calibration, and certification services for Civil structures, including Thickness testing of boiler tubes, Hydro testing of Safety Relief Valves & Receivers tanks, and more.
- **Consultancy - Civil:** Provides consultancy services in Civil engineering.
- **Fabrication, Repair & Maintenance:** Offers comprehensive services in the fabrication, repair, and maintenance of both Civil and Mechanical structures.

This diverse range of services positions the company as a one-stop solution for a wide array of engineering needs across various industries.
