Hello,

We are leading manufacturer of Thermocole (EPS- Expandable Polystyrene) and Armour (EPE – Expandable Polyethylene) Packaging manufacturer. We have started our journey in 2006. Since last 14 years we have been working in this industry. Our proprietor Mr. Khimjibhai Bhanushali (B.E. Mech.) is having 26 years experience in this field. Currently we are already supplying in various leading industries. Pharmaceutical Industries, Gifting Industries, Food Packaging Industries, Home Appliances Packaging, Engineering Items Manufacturing / Exporting Industries, Fire Safety Equipments, etc.

We having our own establishment have capacity to manufacture any number of quantities in minimum time with most value engineered economical cost and with utmost quality and precision. We have capability of designing packaging for any type of product by proper Structural and Dimensional Analysis. From this analysis we select the proper grade and density of the material. We have various ways of packaging too. We provide Fabrication (Manually operated tooling), Die / Mould Manufacturing and Moulding facilities too.

Fabrication is the most suitable option for you to get packaging without investing in Die / Mould. Our aim is to provide high quality of packaging at most economical rate. We can develop packaging by balancing your suitable parameters and our technical aspects.

➤ Products / Samples :-

(1) Thermocole Filler Chips :-

- These are known as Thermocole Filler Chips.
- Their main usage is to fill voids in any kind of packaging.
- We have availability of Non-Standard and Standard Filler Chips.

(2) Thermocole Beans (Granules) for Bean Bag :-

- Thermocole Beans / Granules are specially processed beans with different grade raw materials due to need of cushioning as well as volumetric filling capacity.
- This are packed as per needed standard volume. According to Bean Bag Cover Sizes (Standard), general required number of bags are XL-2 Bags, XXL – 3 Bags, XXXL – 4 Bags.

(3) Thermocole Sheets :-

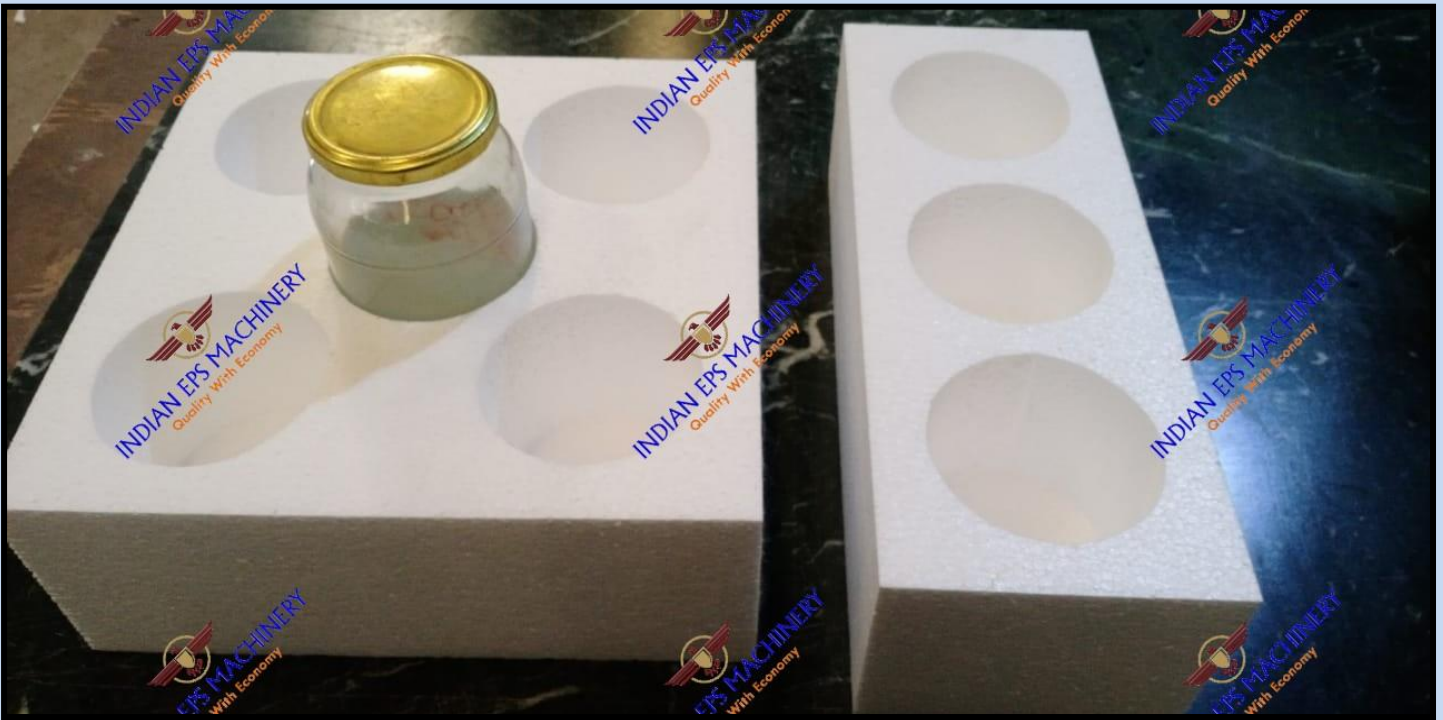

- We have Thermocole sheets available in various thicknesses and densities.
- Standard Size sheets are in size of 1 m X 0.5 m X T, T – Variable Thickness (As per customer requirement)
- We provide customers cut sheets in their required dimensions too.
- We have specialised Insulation Sheets available which are manly used for ceiling-work purpose.

(4) Thermocole Fabrication (Manual Tooling Work / Without investing in Die or Moulds) :-

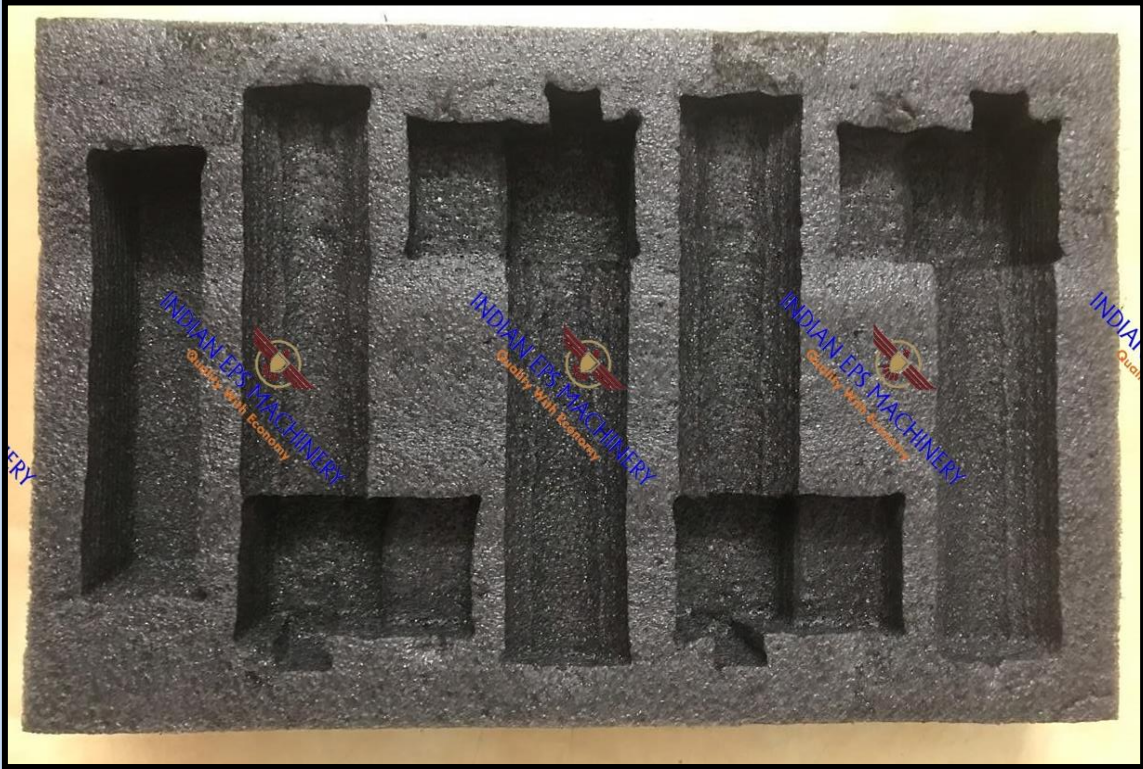

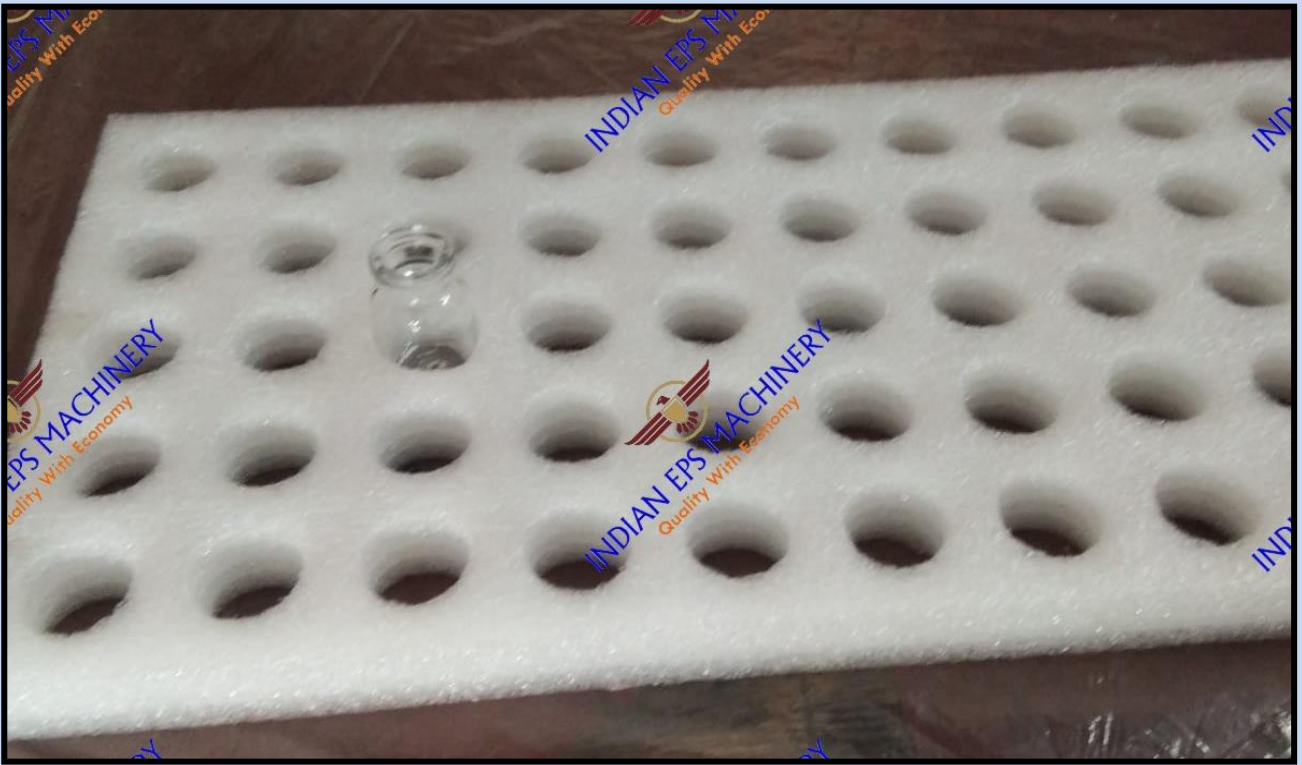

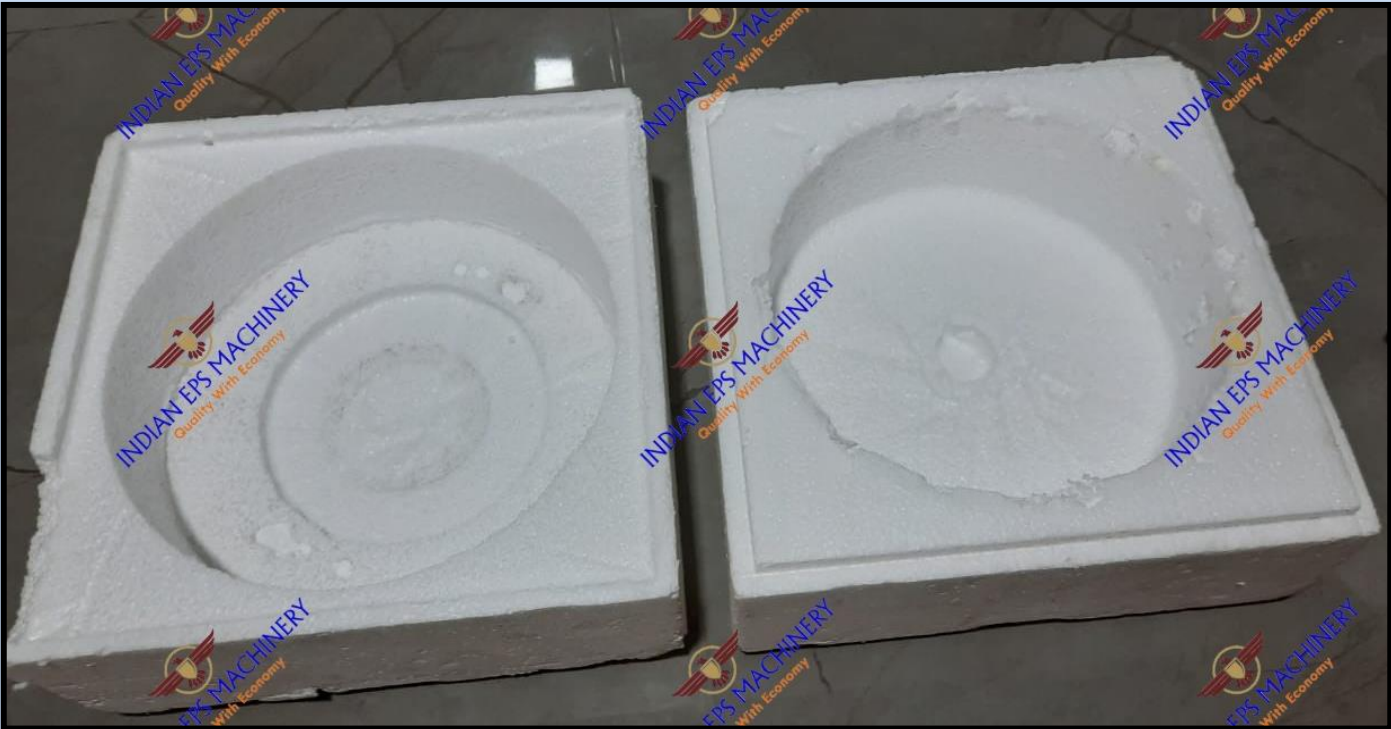

(5) Armour Fabrication (Manual Tooling Work) :-

(6) Thermocole Moulding Samples :-
