The company with **experience**

Our Story

Stanley hails from the Sartaj Group, a prestigious group of companies comprising Standard Metal Industries, Raunak Industries, and G.R. Overseas. An allied workforce in the form of professional engineers and technicians coupled with robust technology has enabled the Sartaj Group to stake their claim among the top manufacturers of builder hardware in the country since the last 40 years. The parent group's quality product is gaining demand from across the globe including Germany, United Kingdom, Dubai, and SAARC countries among others.

“ We value high performance from our employees & suppliers and quality in our products and services. ”

Stanley specializes in the customized production of electrical stampings and production with state-of-the-art technology and advanced processes. With the aim of targeting both the overseas and domestic markets, Stanley prioritizes quality consciousness and consumer experience with high commitment.

Under the leadership of Founder Karandeep Singh, Stanley envisions becoming the country's most prominent and leading stamping and lamination producer shortly.

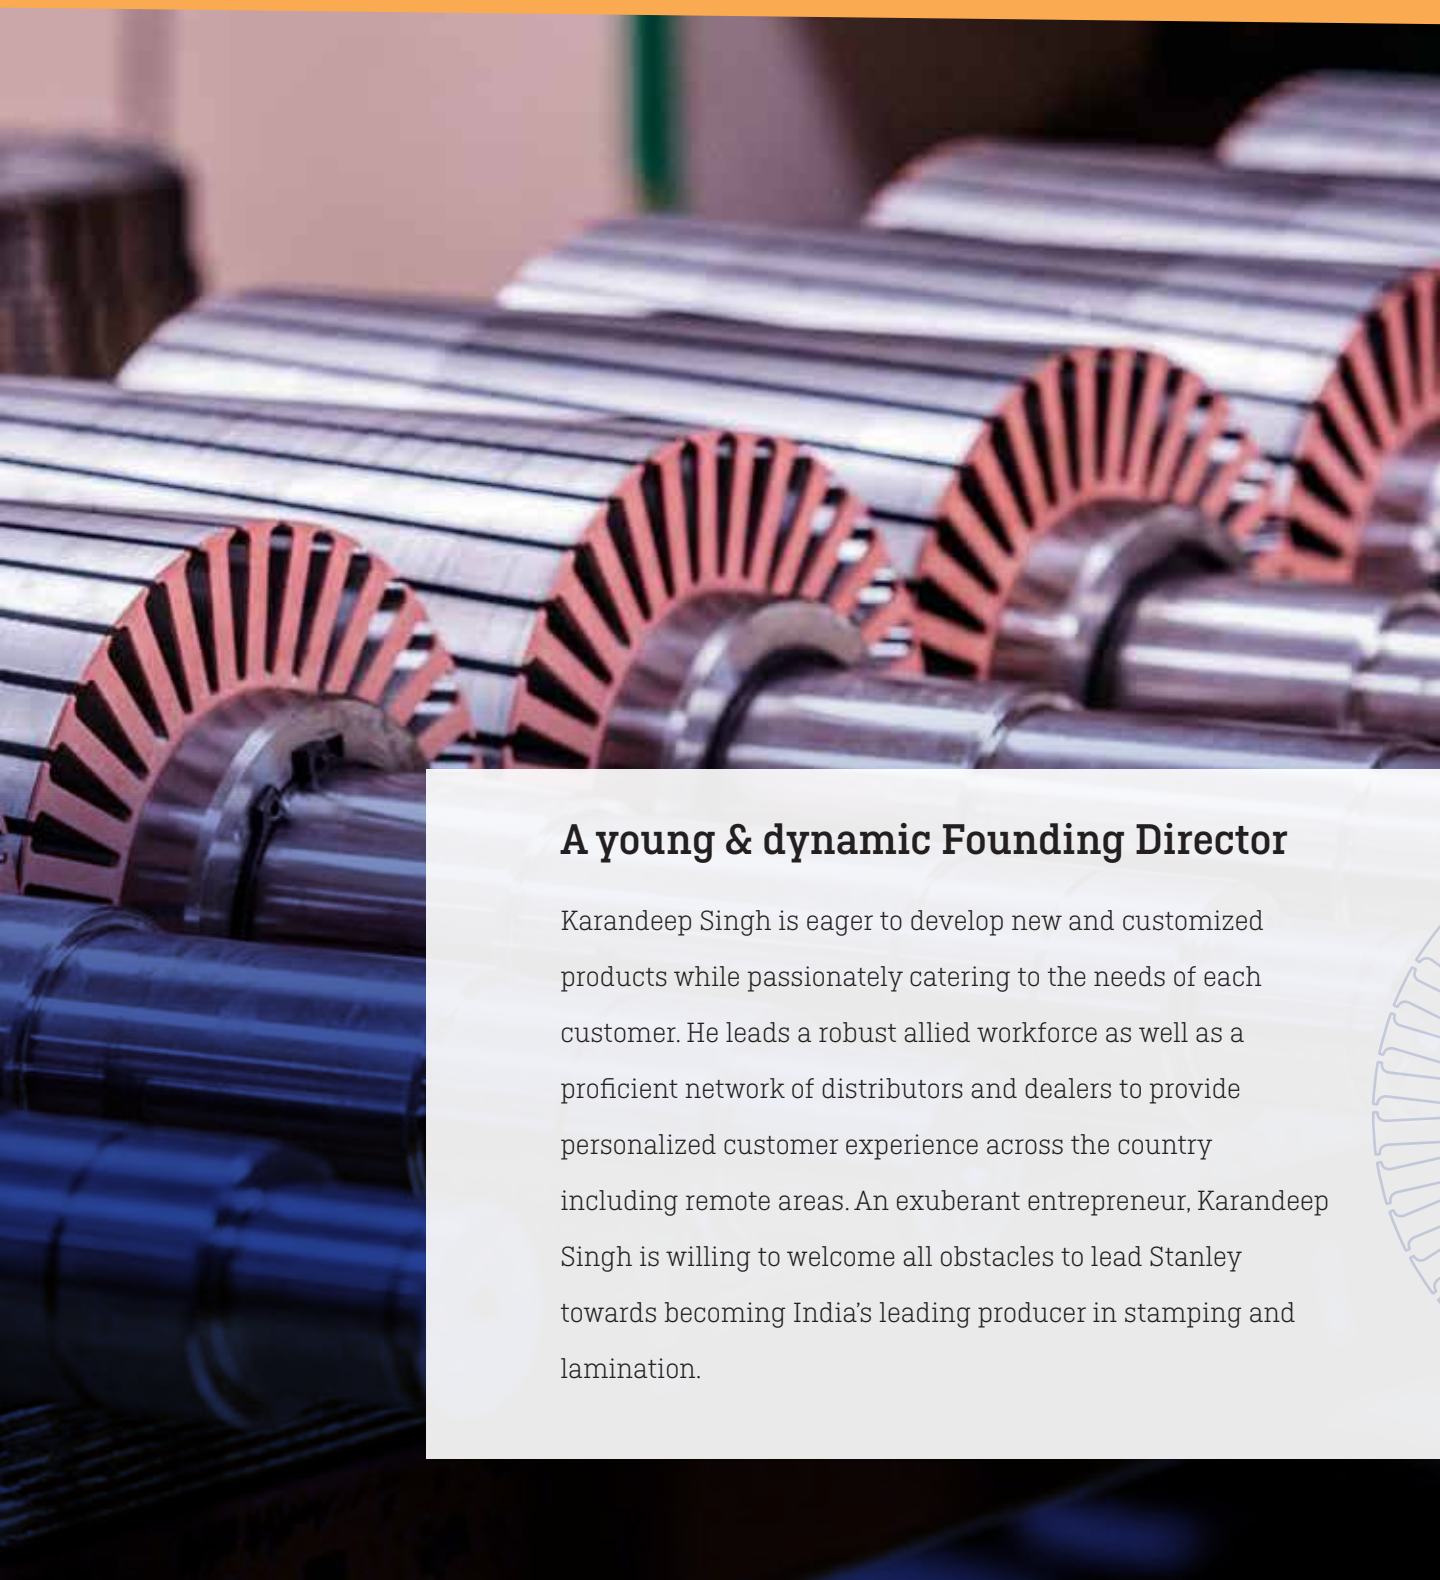

The Sartaj methodology invariably follows through in Stanley thereby ensuring guaranteed supply within 48 hours; latest technology and efficient machinery; stringent implementation of international standards of quality control techniques at each stage of manufacturing viz. procurement of raw material, assembly, warehousing, and shipping; and customized solutions to meet the needs of each customer.

Karandeep Singh

Director

Stanley
Stamping & Lamination

A young & dynamic Founding Director

Karandeep Singh is eager to develop new and customized products while passionately catering to the needs of each customer. He leads a robust allied workforce as well as a proficient network of distributors and dealers to provide personalized customer experience across the country including remote areas. An exuberant entrepreneur, Karandeep Singh is willing to welcome all obstacles to lead Stanley towards becoming India's leading producer in stamping and lamination.

Our Certification

ICM Certification

Certificate of Compliance

We hereby declare that the technical file of the product conforms with the requirement of Electromagnetic Compatibility are regulated by Directive 2004/108/EC.

Manufacturer: STANLEY STAMPINGS & LAMINATIONS LLP
 Kh. No. - 29/31, Street No. - 12, Libaspur Industrial Area, Delhi - 110042, India

Products: Electrical and Automotive Stampings and Laminations

The Certification body has performed an audit of the above product quality system covering design, manufacture and final inspection of the certified product. The Quality system has been assessed, approved and is subject to continuous surveillance according to the Directive Electromagnetic Compatibility are regulated by Directive 2004/108/EC. Technical File Ref- SRC-TC001&2, Issue :- 01

This Certificate is issued under the following Conditions:

1. It applies only to the quality system maintenance in the manufacture of above mentioned models and it does not substitute the design or type examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality systems are changed.
3. The certificate validity is conditioned by positive results of Surveillance audits.

The CE Mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC Declaration of conformity and compliance with all relevant Directive 2004/108/EC. The statement is based on a single evaluation of one sample of above mentioned product. It does not imply an assessment of the whole production.

:: Certificate No. :: ICM/DL07/1078C

<i>Date of initial registration</i>	May 30, 2019
<i>Date of this certificate</i>	May 30, 2019
<i>Certificate expiry</i>	May 29, 2020
<i>Re-certification due</i>	May 30, 2022

(Subject to the company maintaining its system to the required standard).

CERTIFICATE OF REGISTRATION

CERTIFICATE OF REGISTRATION

This is to Certify that the Quality Management System of

STANLEY STAMPINGS & LAMINATIONS LLP

Kh. No. - 29/31, Street No. - 12, Libaspur Industrial Area, Delhi - 110042, India

Has been independently assessed and is compliant with the requirements of

ISO 9001:2015

This Certificate is applicable to the following product or service ranges :

"Manufacturing of Electrical and Automotive Stampings and Laminations"

Certificate Registration no. : ICM/DL07/1067Q

Date of Initial Registration	May 20, 2019	Issue Date	May 20, 2019
Date of Expiry of Certificate	May 19, 2020	Date of Re-Certification	May 20, 2022

[Subject to the company maintaining its system to the required standard]
 *After Successful Completion of surveillance audit, New certificate shall be issued.

Robust Infrastructure

Through highly-engineered and advanced technology products, processes, and systems, Stanley Stampings and Laminations are set to lead the industry with robust infrastructure and operating performance.

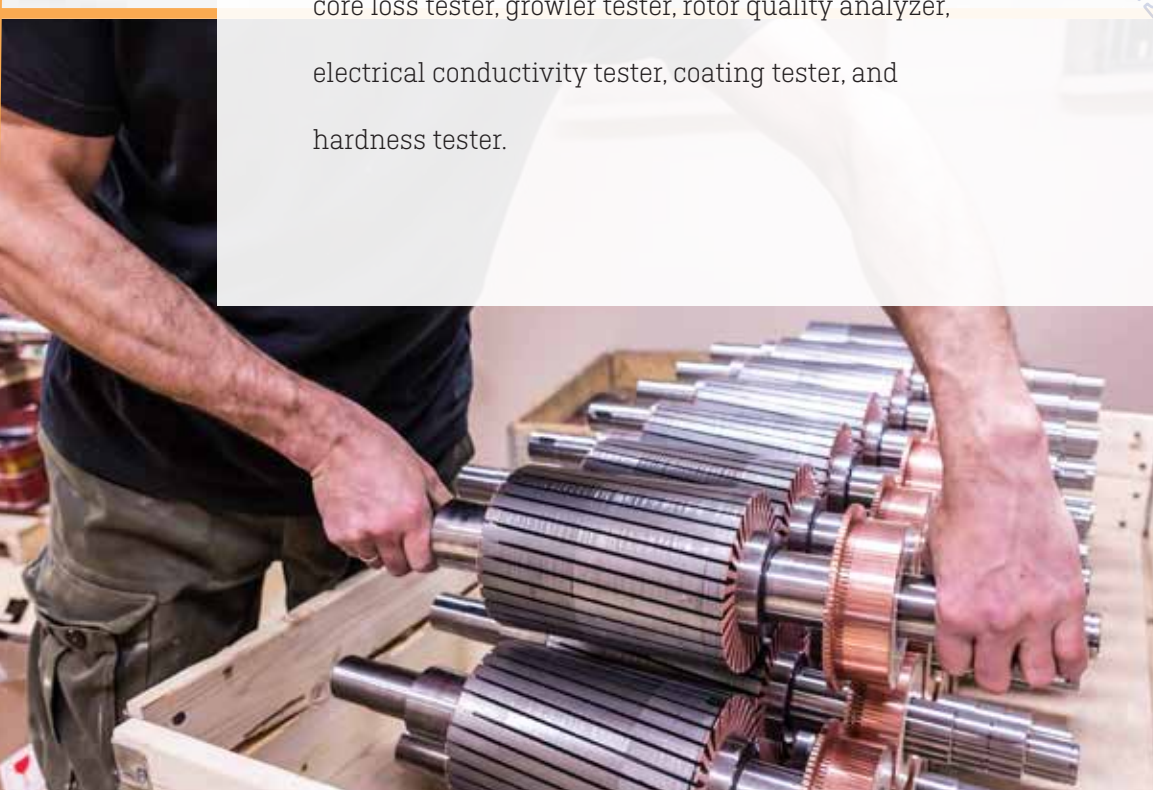

Quality & Process

Stanley's high threshold for class and operating processes aligns with industry benchmarks.

Company meticulously follows international standards of quality control techniques for each piece at each step of manufacturing. Our testing laboratory is a testament to consistent and high quality as it is equipped with core loss tester, growler tester, rotor quality analyzer, electrical conductivity tester, coating tester, and hardness tester.

Industrial

Stamping & Lamination applications

Electrical Appliances

Stanley is a trusted partner of choice for large volume production of fans and other home appliances with a series of high-speed presses. Our quality process systems ensure efficient and versatile output in terms of both size and design of electrical stampings for fans and other appliances including juicers, mixers, and exhausts among others.

Laminations

El Core Laminations

Stanley's first projects in the realm of electrical laminations included the production of transformer laminations for UPS units as well as stabilizers. Apart from maintaining a wide range of standard laminations, we further provide customized sizes with different gauges and grades to work with varied applications.
